DH80 Sprinkler Designed for long and narrow applications (hallways & corridors). Provides coverage up to 28' in width and a length of 14'. **Bulletin 003**

MBEC-14 HSW Specially engineered fire sprinkler for pre-engineered metal buildings. Designed to be installed on piping that is supported by the primary roof beams and not the purlins. Covering up to 175 sq. ft. (14' x 12.4') . **Bulletin 169**

XL Institutional Sprinklers Only manufacturer to provide an extended coverage for both sidewall and pendent styles covering 16' x 16'. The XL uses Belleville Spring closure and is cULus Listed. **Bulletin 113**

Residential Sprinklers Our Residential Sprinklers meet the new .05. Density for UL and NFPA 13D & 13R requirements while providing the #1 combinations of flows and pressures. **Bulletins 035 & 135**

K-22 ESFR Our K-22 ESFR Sprinkler offers K-25 protection at K-22 flow and pressure requirements. Can require up to 240 gpm less than the K-25. cULus and FM Approved. **Bulletin 166**

FreezerPak Uses the new Type F Double Interlock Preaction System which eliminates the need for costly regenerative air compressors as well as requiring only 10-22psi air pressure. **Bulletin 726**

SWC For hotels and dormitories, the SWC is a Quick Response Concealed Sidewall Sprinkler that can provide protection with one sprinkler covering 16' x 22'. **Bulletin 163**
