

System Components Revised Price Pages!

October 2003

Dear Customer:

Enclosed please find new System Components Price Sheets that reflect increases on **Star Piping Products Grooved line** of 4% and their **Cast Iron** and **Ductile Iron Screwed fittings line** of 5%. These prices will go into effect on **November 17, 2003**. We regret the need to raise pricing, but do so only as a result of increases that we receive from our manufacturing partners. Please review your requirements for these products and place your orders no later than **November 7th** for shipment on or before **November 14th**. All orders placed and shipped after these dates will be subject to the announced increase.

In addition to the above pricing we are including **new price sheets** to reflect updates to our current system components line as well as new products available from our vendor partners. Please take the time to review these sheets and familiarize yourself with the complete product line available from your Reliable Regional Warehouse. You will find that Reliable is your one source for all of your fire protection product needs from Heads and Devices to Steel Pipe and Hangers.

Your business is valuable to us and we thank you for your continued support of our own Reliable Manufactured Products as well as our complete line of System Components Equipment.

Sincerely,

Rex Schwendiman
Vice President, System Components
