

# HOLIDAY GREETINGS *from*

**Reliable**

TECHNOLOGY • QUALITY • SERVICE

**Holiday Schedule**  
**Reliable will be closed on December 24 and 31, 2004.**  
**Please anticipate your requirements prior to these dates.**

**DDX Valve** - Our new DDX Valve is designed for deluge, preaction and dry systems. It is extremely lightweight and compact with both ends grooved. Bulletins 356 & 510.

**Residential Sprinklers** - Reliable offers the most complete line of Residential Sprinklers in the industry. Our new Horizontal Sidewall and Recessed Residential Sprinklers offer the best combinations of flows and pressures! We offer the industry's first and only Concealed Residential HSW. Our **RFC 43** and **RFC 56** are Residential Flat Plate Concealed Sprinklers that offer absolutely the lowest flows and pressures on the market today. Our Residential Sprinklers are approved for Sloped Ceiling Applications. Bulletins 135, 009, 006, 035, 007, & 140.

**DH80, SWC, & SWC56** - Now available without slots in the coverplates. Quick Response Concealed Sprinklers that can provide protection with one sprinkler instead of two. Bulletins 003, 163, & 168.

**Early Suppression Fast Response Sprinklers** - We've expanded our ESFR line with two new products. Our **HL-22 ESFR** has a K Factor of 22.4 and our **HL-14 ESFR** is a K-14 ESFR. Both use Fusible Link Technology - not glass bulb. These ESFR sprinklers are cULus Listed and FM Approved. Bulletins 005 & 010.

**MBEC-14 HSW** - Specially engineered fire sprinklers for pre-engineered metal buildings. Designed to be installed on the piping that is supported by the primary roof beams and not the purlins. Covering up to 175 sq. ft. cULus Listed and FM Approved. Bulletin 169.

**XL Institutional Sprinklers** - Only manufacturer to provide an extended coverage for both sidewall and pendent styles covering 16' x 16'. Uses Belleville Spring closure. cULus Listed and NYC MEA Approved. Bulletin 113.
