# System Components Pricing Update!

December 2004

Dear Customer:

Reliable was recently informed of a price increase effective February 1, 2005 from Anvil International, Watts, and Cerieco. The increase will be as follows:

- **Anvil Domestic Cast Iron and Malleable Iron Fittings** 5%
- **Watts Manufactured Products** 6 - 9%
- **Cerieco Weld O-lets and Shaped Nipples** 11 - 13%

Because of these increases, Reliable will be increasing List Prices to all of our customers effective **February 1, 2005**.

Please take the time to review your requirements for these products and place an order with us prior to **January 21st** for shipment no later than **January 28th**. We will not be able to hold pricing or ship product at the old price after **February 1, 2005**. Please get your orders in early.

In addition, we will be adding and updating some of our other System Components price pages in order to better serve our customers.

We regret the fact that we have to increase our pricing, but we do so only as a result of the price increases that we receive from our suppliers. In addition, our vendor partners are also telling us that there could be additional increases early in the second quarter of 2005.

Our amended pricing will be posted on the Reliable website at [www.reliablesprinkler.com](http://www.reliablesprinkler.com) and will be available by **January 21st**. The file can be downloaded from the site.

All of us at Reliable want to thank you for your business and continued support of Reliable's System Components product line.

Sincerely,

Rex Schwendiman  
Vice President, System Components
