

Happy Holidays

RASCO CITY HOLIDAY SPECTACULAR

Presents: N252 Pendent & Recessed Pendent, J168 Upright, Commercial Riser & DDX Valve

HOLIDAY SCHEDULE

Reliable will be closed December 23 and 26, 2005 and January 2, 2006.

Please anticipate your requirements prior to these dates.

Reliable is proud to announce **two new Storage Sprinklers**, which will be **available Winter 2006**.

N252 EC, K-25 EC Pendent and Recessed Pendent

- Extended Coverage Pendent & Recessed Pendent for Density/Area Design
- Approved for coverage up to 196 square feet (14' x 14') for extra hazard and storage applications
- Can be installed directly on the piping for exposed pipe systems. Sprig-ups are not required for larger diameter piping.

J168, K-16.8 Upright

- New control mode, density/area upright sprinkler
- Primarily for extra hazard and storage occupancies as designed and installed under NFPA 13 requirements
- Can allow reduced design areas, higher storage, reduced ceiling clearance to storage, and other savings in sprinkler design.

For these new products, please check with your local sales office for availability

Commercial Riser

- Factory assembled with the necessary accessories for a cost effective, yet complete riser assembly
- UL Listed and FM Approved
- 300 psi (20,7 bar) rated for grooved manifolds, 250 psi (17,2 bar) for threaded
- Bulletin 615

DDX Valve

- Designed for deluge, preaction (both single and double interlock), and Reliable's low-pressure dry systems
- Extremely lightweight and compact with both ends grooved.
- Bulletins 357 & 510
