

The New Look of Reliable's Website

Easy Navigation
Enhanced Search
E-Updates
Product Preview

The screenshot displays the Reliable website interface. At the top, the 'Reliable' logo is followed by the tagline 'technology • quality • service'. A search bar is located on the right with the prompt 'Find a Product: Search by Keyword, Bulletin, or SIN #'. Below the header, a navigation bar highlights 'Sprinklers', 'Valves', 'Special Hazards / Systems', and 'System Components'. A left-hand navigation menu includes links for Home, About Us, Company History, Links, Employment Opportunities, What's New, New Products, Product Solutions, Advertisements, Brochures, Announcements, 2005 Price Book, Products (Sprinklers, Valves, Special Hazards / Systems, System Components, Overseas, All Bulletins, E-Updates), SMART Guide, Technical Services (Technical Specifications, FAQs, Contact Technical Services), Find A Location, Events, and Contact Us. The main content area features a banner image of a building and a fire sprinkler. Below the banner, the text reads 'What's New at Reliable Automatic Sprinkler...' and 'Reliable is proud to announce two new Storage Sprinklers, which will be available Spring 2006.' Two product models are highlighted: 'N252 EC, K-25 EC Pendant and Recessed Pendant' and 'J168, K-16.8 Upright'. Each product has a list of features and a small image. To the right of the main content, there is a 'Receive E-Updates' section with an email input field and a 'SIGN UP' button, and a 'Site Resources' section with links to 'List Price Book', 'Product Catalog', and 'Technical Specifications'. The footer contains links for 'Home | Employment Opportunities | Privacy Policy | Terms of Use' and the copyright notice '2006 © The Reliable Automatic Sprinkler Co., Inc., All Rights Reserved'.
