

## Our PrePaK Line Just Got Smaller and Larger

November 2007

Dear Valued Customer:

That's right! Reliable's PrePaKs are **smaller in size and weight - 33 % smaller and over 300 lbs. lighter than the competition** - and are Larger in the Number of Available Configurations. Our 4" and 6" PrePaKs are now manufactured using our **DDX Valve**.

- 4" & 6" DDX PrePaKs are cULus Listed and FM Approved
- Potter PFC-4410-RC Releasing Panel (Single or Double Interlock by a simple program change)
- Retains UL listing when using an external UL Listed Releasing Control Panel
- Complete with Tank & Air Compressor
- Weighs less and is smaller in size than the previous BX versions
- Fits through a 30" x 69" Opening
- For more information, please refer to Technical Bulletin 733.
- 2", 2 ½", and 3" DDX PrePaK Systems are **Coming Soon!**

Thank you again for choosing Reliable - your one source for all your fire protection needs.

Sincerely,

Michael R. Fee
