

Continuing to Change the Shape of Sprinkler Protection

Reliable's DH56 & Dry DH56 Sprinklers

Light Hazard, Extended Coverage for Decks, Halls or Rooms

January 2007

Dear Valued Customer:

Introducing a new and improved version of the Deck Hall Sprinkler - the **DH56**.

- Coverage for long and narrow spaces such as hallways, corridors, decks and rooms up to 28 feet wide and 10 feet deep
- Deflector to ceiling dimensions are: 4" (102mm) minimum to 12" (305mm) maximum
- UL Listed quick response extended coverage horizontal sidewall sprinkler for Light Hazard Occupancies
- Sprinklers are approved for 250 psi (17,2 bar) applications
- 5.6 K Factor and available in an array of finishes
- Styles include: Horizontal Sidewall, Horizontal Sidewall Recessed and Horizontal Sidewall Concealed
- Also available as a **dry horizontal sprinkler** - especially important for multi-family residential occupancies up to 4 stories in height with unheated hallways and exterior balconies
- Styles include: EC Horizontal Sidewall, EC Horizontal Sidewall Recessed/FP and Horizontal Sidewall Concealed
- For more information, please refer to Bulletins 015 (DH56) and 016 (Dry DH56)

Thank you again for choosing Reliable - your one source for all your fire protection needs.

Sincerely,

Michael R. Fee
