Because of these increases, Reliable will be increasing List Prices to all of our customers on **April 5, 2010**. We regret the fact that we have to raise our prices, but we do so only as a result of the increases that we receive from our manufacturing partners. Our goal at Reliable has been and continues to be to provide our customers with a quality product at a competitive price.

Please take the time to review your requirements for all products manufactured by the companies listed above and place an order with us prior to **March 29, 2010** for shipment no later than **April 2, 2010**. We will not be able to hold pricing or ship product at the old price after **April 2nd**.

In addition, we will be updating our System Components price pages in order to better serve our customers.

Our amended pricing will be posted on the Reliable website at www.reliablesprinkler.com and will be available by March 22nd. The file can be downloaded from the site.

All of us at Reliable want to thank you for your business and continued support of Reliable's System Components product line.
