

Reliable®

For over 90 years, The Reliable Automatic Sprinkler Co., Inc. has manufactured fire sprinklers, valves, and fire protection accessories. They are also a major distributor of sprinkler system components. Reliable produces a full line of both solder element and frangible glass bulb sprinklers for virtually every type of protection requirements. Reliable has a complete line of fire protection valves for controlling water flow and providing alarm signaling to include check, alarm, dry, deluge, and preaction valves.
