Reliable® receives cULus Listing for compact K25.2 Early Suppression Fast Response Sprinklers

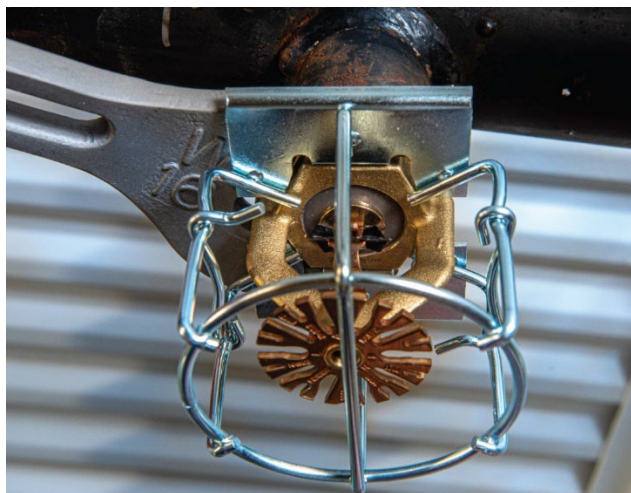

[Liberty, South Carolina, July 2024] The Reliable Automatic Sprinkler Co. Inc. announced cULus Listing for its compact K25.2 P-frame Early Suppression Fast Response Sprinkler.

The Model P25 is an Early Suppression Fast Response (ESFR) fire sprinkler with a nominal K-factor of 25.2 (360 metric). For systems designed in accordance with NFPA 13 standards, the P25 is considered an ESFR fire sprinkler. FM Approvals classifies the P25 as a quick-response storage and non-storage sprinkler when used in accordance with FM Global Property Loss Prevention Data Sheets.

In addition to the general cULus Listing, the Model P25 ESFR sprinkler in 212°F (100°C) temperature rating also has a cULus Specific Application Listing for protection of Class I-IV and cartoned unexpanded Group A plastic commodity in single- and double-row open frame racks for storage up to 40 ft (12.2 m) tall under ceiling heights up to 48 ft (14.6 m) where aisles of 5 ft (1.5 m) or greater are provided.

“P-frame sprinklers are the lightest, most compact ESFR sprinklers on the market,” noted Phil Friday, Director of Engineering Applications & Innovation. “In addition to allowing greater flexibility regarding ceiling distance and obstructions, the P25 is installer friendly. There are no bulb or link protectors required, and the light weight, ergonomic wrench reduces installer fatigue.”

The Model P25 fire sprinkler may also be used as in-rack sprinklers where allowed in NFPA 13. Guards and shields are available pre-installed from the factory and the assembly can be installed using the Model W16 wrench. For more information visit reliablesprinkler.com/esfr.

About Reliable:

The Reliable Automatic Sprinkler Co. Inc. is a global manufacturer and distributor of fire protection products. Reliable manufactures the highest quality and most innovative fire sprinklers, valves and special systems on the market; distributes a full line of best-in-class system components; and backs it up with premier customer service. Reliable's corporate headquarters is located in Elmsford, NY; manufacturing plant in Liberty, SC; and regional sales and distribution centers located throughout the US and around the world.
