

# CONNECT WITH OUR NEWEST FAMILY MEMBER

**The RASCOFLEX® Braided Welded Drop (RFBW)**  
The latest addition to the line of Reliable® Flexible Sprinkler Connections.

Welded throughout without  
rubber O-Rings or gaskets  
and 100%  
leak tested

2 bend radius  
allowed per UL

100% 304 stainless  
steel, in lengths of  
24, 31, 40, 48, 60,  
and 72

Overall industry-  
leading welded hose  
friction loss

Serial  
identification  
for tracking

Open hub system  
for swift and precise  
repositioning

Easily visible  
center-of-the-tile  
marking

Engineered for quick installation  
with welded adapters, the  
RFBW minimizes potential leaks.
