# Narrow Aisles and Low Operating Pressure for Deck Heights up to 48 ft ( 14.6 m ) 

## High Performance

The Reliable Model N28 series of sprinklers allow storage up to 43 ft ( 13.1 m ) tall under ceiling heights up to $48 \mathrm{ft}(14.6 \mathrm{~m}$ ) with $4 \mathrm{ft}(1.2 \mathrm{~m})$ aisles. All with a low 35 psi ( 2.4 bar) minimum operating pressure. This is performance and storage flexibility that is unmatched in any sprinkler with a cULus Specific Application Listing for 48 ft (14.6 m) ceiling heights.

The Model N28 sprinklers are Listed to protect Class I through IV and Cartoned Unexpanded Group A plastic commodity in single-, double-,

W5 wrench locks into sprinkler boss and multiple-row racks in accordance with the 2022 edition of NFPA 13. The sprinklers have a Nominal K-Factor of $28.0 \mathrm{gpm} / \mathrm{psi}^{1 / 2}\left(400 \mathrm{~L} / \mathrm{min} / \mathrm{bar}^{1 / 2}\right)$ and install with a 1-inch ( 25 mm ) NPT or BSPT connection using the lightweight ergonomic Model W5 wrench. See Technical Bulletin 082 for further information.

## Reliable Quality

Designed, assembled and tested to Reliable's exacting standards in Liberty, SC, USA. The N28 series of sprinklers employ a rugged fusible element and require no shipping protector.
No one makes a link like Reliable.
