

RASCOFLEX® BRAIDED WELDED DROP

RASCOFLEX® Model RFBW Sprinkler Connections

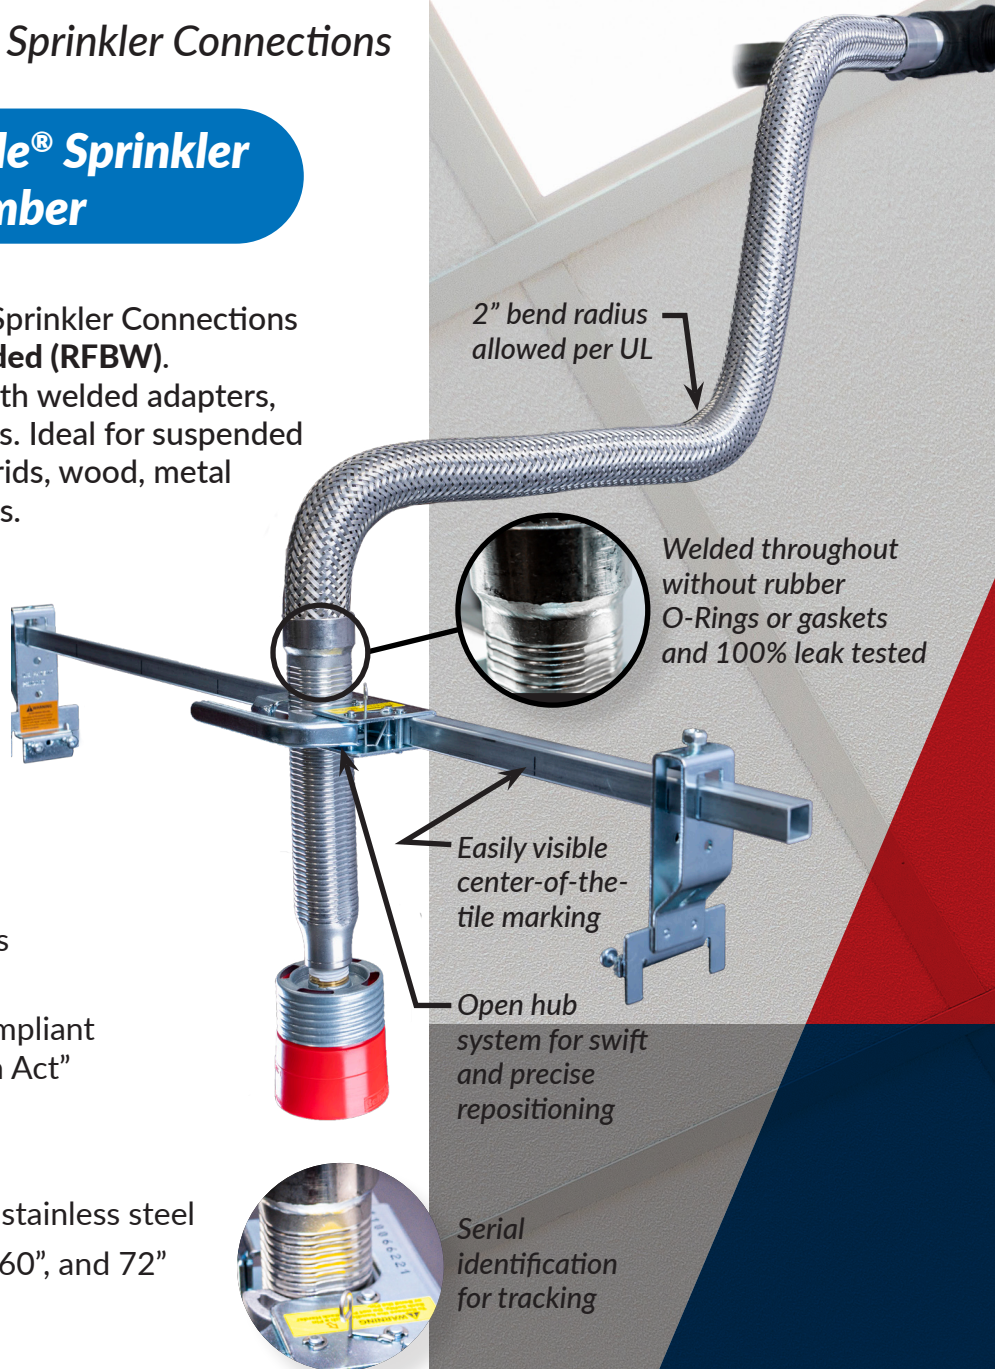

Meet the Newest Reliable® Sprinkler Connections Family Member

The latest addition to the Reliable Sprinkler Connections family: **RASCOFLEX® Braided Welded (RFBW)**. Engineered for quick installation with welded adapters, the RFBW minimizes potential leaks. Ideal for suspended and hard ceilings, including T-Bar grids, wood, metal stud, or hat furring channel hard lids.

- **cULus Listed, FM Approved**
- Overall industry-leading welded hose friction loss
- One of the smallest bend radii allowed by UL for flexible sprinkler hoses
- **Simple bracket design makes installation a breeze**
- Open hub bracket system allows swift and precise repositioning
- Trade Agreements Act (TAA) compliant for use in certain "Buy American Act" (BAA) projects

Specifications

- Hose constructed of 100% 304 stainless steel
- Hose lengths: 24", 31", 40", 48", 60", and 72"
