

Reliable®

Reliable Automatic Sprinkler Co., Inc.
Manufacturer & Distributor of Fire Protection Equipment

January 23, 2021

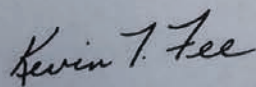

One hundred and one years ago, our grandfather and great-grandfather incorporated the Reliable Automatic Sprinkler Co., Inc. Now, as we conclude our Centennial year, we renew our legacy of service and commitment to the fire sprinkler community.

When we began this Centennial celebration last January, little did we know of the trials that faced us in the coming year. Much as Frank J. Fee's young company was born in the aftermath of a deadly global pandemic, one hundred years later we found ourselves negotiating another pandemic with COVID-19.

Again, we must thank our family of employees, trusted customers, professional service partners, associations, suppliers, fellow manufacturers, and all the men and women who have dedicated their lives to the protection of life and property.

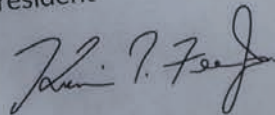

Together, we demonstrated the resilience of our industry in the face of most dire circumstances. We look forward to the future and brighter days to come.

Sincerely,

Kevin T. Fee
