

## New Smaller Alarm Check Valves

September 2015

Dear Valued Customer:

Reliable now offers **smaller Model E & E3 Alarm Check Valves with Model E3 trim.**

- Available sizes: **2-1/2" (65mm), 3" (80mm) and 76mm**
- Valves' grooved seat design insures positive water flow alarm operation
- Precision retard chamber limits false alarms under variable pressure conditions
- External bypass aids in prevention of false alarms under all supply conditions
- Vertical and horizontal installation options
- **Model E3 Valve -**
  - 300 psi (20.7 bar) rated
  - Groove/Groove
- **Model E Valve -**
  - 175 psi (12.1 bar) rated
  - Flange/Flange or Flange/Groove
- Model E3 Trim is used with both Model E and Model E3 Valves

For more information, please refer to **Bulletins 427 and 428** or contact your local Reliable sales office.

Thank you again for choosing Reliable - your one source for all your fire protection needs.

Sincerely,

Michael R. Fee
