

Reliable offer a range of guards for pendent and upright sprinklers. These are designed to both protect against damage to the sprinkler itself, and to prevent the ingress of water from above, which could prevent correct activation.

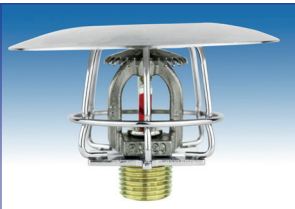

Mini Guard

- Chrome Finish
- For 1/2" (15mm) & 3/4" (20mm) Sprinkler
- Height: 54mm
- Frame material thickness: 2.4mm

Maxi Guard

- Chrome Finish
- For 1/2" (15mm) & 3/4" (20mm) Sprinkler
- Height: 82mm
- Frame material thickness: 2.4mm
- Water shield available

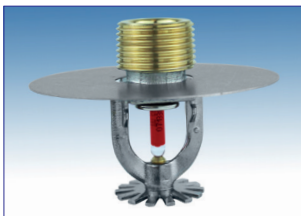

Mini Guard Upright

- Chrome Finish
- For 1/2" (15mm) & 3/4" (20mm) Sprinkler
- Height: 54mm
- Frame material thickness: 2.4mm
- Water shield diameter: 102mm (incl.)

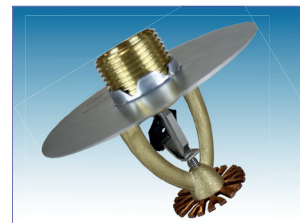

Water Shield Threaded

- Model E1 or E2
- Diameter 83mm
- Screw on type available in 1/2" (15mm) or 3/4" (20mm) sprinkler to be used without guard.
- **FM approved**

Water Shield Flat

- Diameter 83mm
- Available for either 1/2" (15mm) or 3/4" (20mm) Sprinkler

Water Shield Threaded

- Model E3
- Diameter 114mm
