

## Distribution Patterns

### Model GFR VELO ECOH Upright Sprinklers (.15 density & .20 density)

1. Floor coverage indicates maximum effective throw of one half of symmetrical spray pattern.
2. Sprinklers shown operating at flowing pressures indicated.
3. Spacings = one foot
4. Legend:

	Listed Spacing	Flow (GPM)	Pressure (psi)	Density
-----	20 X 20 or less	60.0	18.3	.15
—————	20 X 20	80.0	32.6	.20

These distribution patterns illustrate approximate trajectory and coverage as guidance for preventing an obstruction from being placed in the flow path. No specific coverage areas or densities are implied by these patterns.
